

K-Love serves our local community in many ways. It offers a safe station for children to listen without hearing foul language or sexual explicit lyrics and discussion. It also offers support to listeners with help phone lines open 24 hours a day.

If K-Love was to be displaced in our community by an LPFM broadcaster providing other programming, we would lose a truly positive influence in our community. Many people have been given emotional support by the station. It would be a shame to eliminate such station, when programming such as "Howard Stearn's radio show" is increasing in numbers. What station should someone with children listen, without a positive station like K-Love?

It is in the public's best interest to receive the community service provided by K-Love.

Thank you for taking action to preserve K-Love,

Dan Lavelle
